Dear Providers,

For your monthly training this month we are learning how to Identify Whole Grain Rich Foods! The USDA CACFP requires that at least one serving of grains each day contains a whole grain-rich component. Foods that meet the whole grain-rich criteria are foods that contain at least 50% whole grains and the remaining grains in the food are enriched, or are 100% whole grain. Ready to do the training? A note from our President Blake Stanford:

Farewell to Cantrell

We would like to recognize the departure of one of our long time clients in Taylor Texas, Dorothy Cantrell. Dorothy served her community for over 45 years when she opened her child care home after the birth of her daughter. She joined the Food Program in February 1987 and was one of our first fifty child care providers in Williamson County. Her mother, also named Dorothy, opened a child care home next to her daughter's home and together, they cared for 24 kids. Her mom retired many years back is now 91 years old and

they still live together. Together they cared for hundreds of kids over the years, including the grandchildren of children they cared for. Thank you Dorothy!
