The most common disallowance you will see is serving more than one Juice per day. If you serve more than one Juice any excess meals containing juice will be disallowed. If you have any questions please call your Program Coordinator or the Austin office at 1-800-369-9082

3)Stages of Infant Development and Feeding Skills

Developmental milestones are used as markers to ensure that infants and toddlers are growing in a healthy direction. During early years, a child's relationship with food is crucial for his or her health and development. Learning the physical stages that relate to feeding is important to understanding this process.
